DIRECTIONS – MATERIAL TRENDS FOR THE FURNITURE INDUSTRY

CROSS-GRAIN ABS EDGING

The growth in slab style doors using MFC has risen sharply over the past 18 months. This development has been driven by exceptionally realistic reproductions, deep textures and the trend for woodgrains being used increasingly horizontally. Slab MFC doors offer a premium look at an entry level price point.

To take MFC doors to the next level of realism and to create a wrap around optic for doors with a horizontal grain, EGGER now have a range of 23 × 2mm Cross-grain ABS edging in stock to add even more value to these doors.

UK STOCK RANGE

The product code in brackets refers to the product code for MFC, MDF, Laminate, EUROLIGHT® and standard ABS and Melamine Edging:

H8474 ST22 White Avola (H1474)
