### F436 ST2 Quartz Silk

### F573 ST2 Quartz Champagne

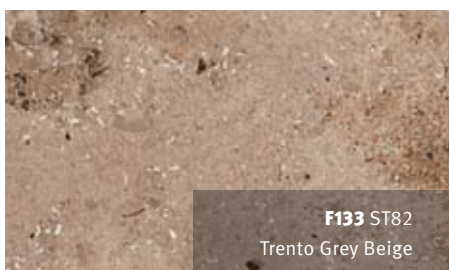

We have introduced Quartz Silk and Quartz Champagne in line with the increasing popularity of uni colours. Both decors are printed using pearlescent inks to give the decors a **metallic, high value appearance**. In other industries such as consumer electronics and the car industry we see metallic colour colours being increasingly used in favour of flat standard colours. Both decors combine well with a wide range of our new and existing woodgrains, as either MFC doors or carcass material.

### WORKTOP COMBINATION IDEAS

Both decors work well with earthy stone worktops. To view our full range of worktops visit [www.egger.co.uk/worktops](http://www.egger.co.uk/worktops)
