DIRECTIONS – DECOR TRENDS FOR THE FURNITURE INDUSTRY

H1215 ST22
Brown Cassino Ash

H1215 ST22 Brown Cassino Ash

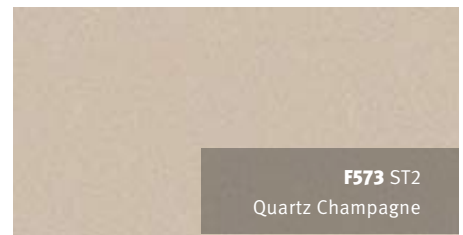

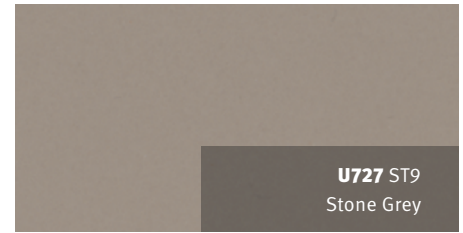

This warm ash design features a blend of dark, pronounced pores and open shadow pores to create a **decor with real depth**. The subtle interplay of colour makes combinations with uni colours easy.

Our popular ST22 texture is used to add further depth to this **very realistic reproduction**. We see the success of warmer woodgrains in the UK with decors such as H3703 ST15 Natural Aida Walnut and believe that Brown Cassino Ash offers a next generation alternative in this colour area.

MFC COMBINATION IDEAS

Brown Cassino Ash can be perfectly combined with creams, whites and EGGER's new brown grey colour palette.

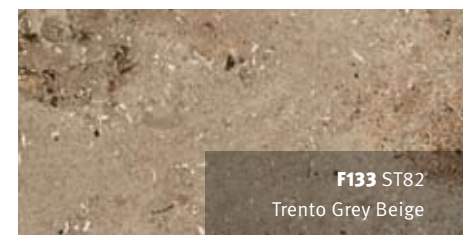

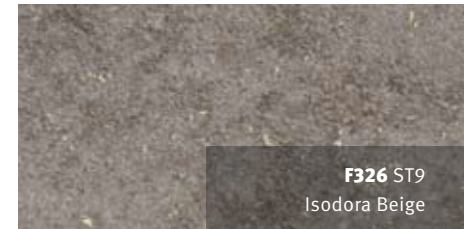

FULL BOARD SCAN

We've scanned a 2700 x 1300 mm board of this decor, so that you can appreciate the grain pattern.

WORKTOP COMBINATION IDEAS

This warm, distinctive woodgrain combines well with a wide variety of worktops thanks to its subtle interplay of colours.
