- ALSO AVAILABLE AS **FLAME-RETARDANT** COMPACT LAMINATE
FLAMMEX EUROCLASS B

EGGER Compact laminate

PRODUCT

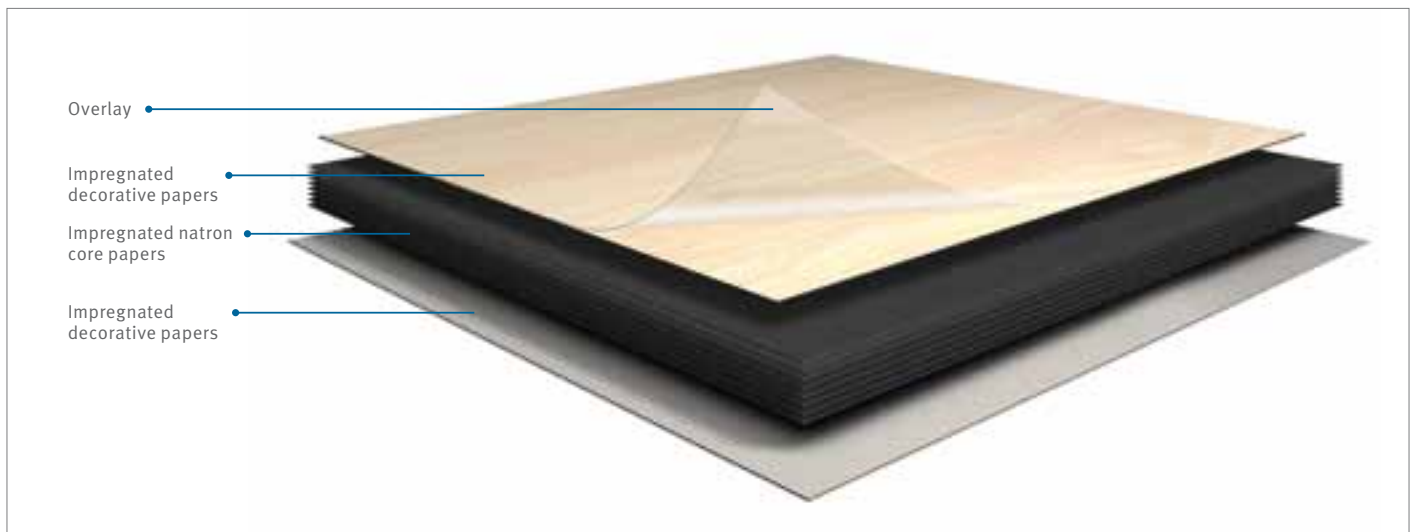

EGGER compact laminate is available in all EURODEKOR® decors of the ZOOM® and INDUSTRY collections. The laminate is constructed of multiple layers of melamine resin impregnated decor papers and several phenolic resin impregnated core layers. To increase surface abrasion resistance, the decorative side is enhanced with a special overlay.

Due to their durable, low-maintenance surface, compact laminates are mainly used for interior applications such as tables, work surfaces and wall cladding.

PRODUCT CHARACTERISTICS

- **Compact laminate** according to DIN EN 438-4:2005, classified as type CGS (compact general-purpose standard).
Normal flammability, not suitable for postforming applications.
- **Compact laminate Flammex Euroclass B** according to DIN EN 438-4:2005, classified as type CGF (compact general-purpose flame retardant);
Reaction to fire according to DIN EN 13501: B-s2, d0
