

MORE FROM WOOD.

PLANT FACTS **UNTERRADLBERG**

EGGER HOLZWERKSTOFFE – A SUCCESSFUL
FAMILY COMPANY SINCE 1961

EGGER HOLZWERKSTOFFE UNTERRADLBERG

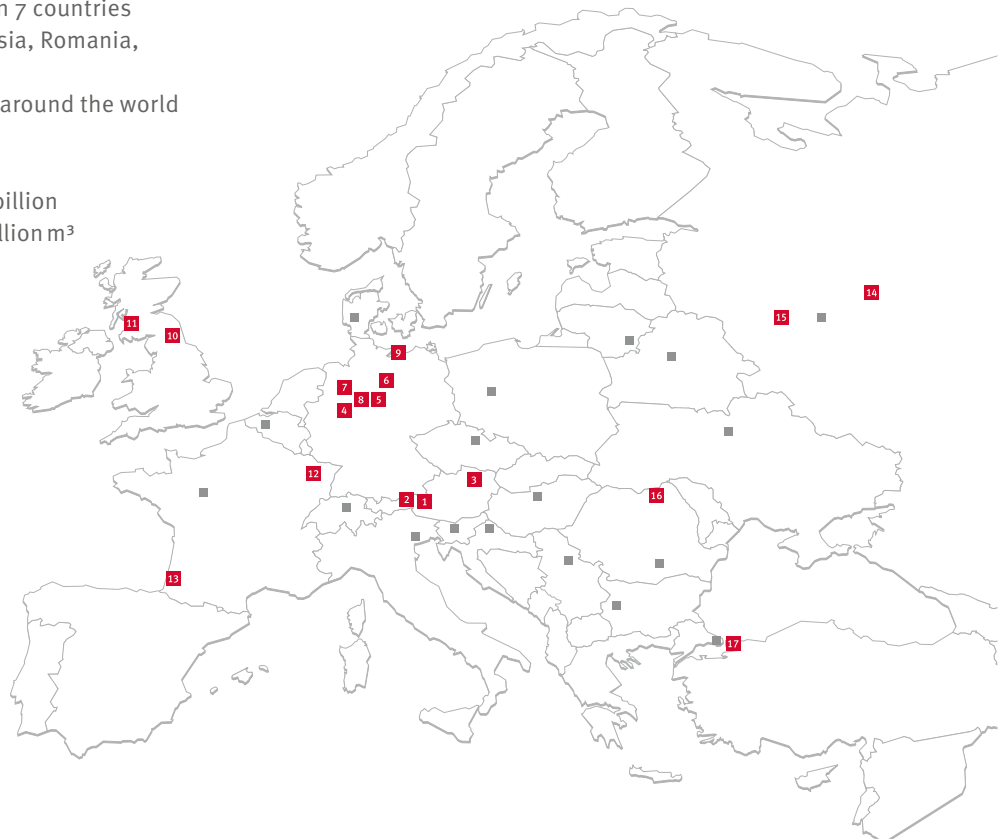

- 1970: Commissioning of the chipboard plant in URB
- 360 employees
- 15 apprentices in the fields of machine construction, electrical production engineering with a focus on process control, wood technology and clerks
- Investments of approximately EUR 200 million in the last 10 years, thereof almost 1/4 in bio-energy generation
- Annual production of 40 million m³ (1,413 million cubic feet) melamine faced chipboards; laid end-to-end, they would reach halfway around the world
- Export quota over 85 %
- Exports mainly to North-Eastern and Southern Europe as well as the Far East to Japan and China
- Company premises: Wood Based Materials : approximately 250,000 m² (2,691,000 square feet, corresponds to around 50 football fields)
- 3.2 km (2 miles) plant railway network; over 50 % of transportation by rail → 18,300 waggons per year correspond to 24,000 truckloads = 130 trucks per day
- Several awards for environmentally compatible logistic systems
 - 2007: National Award “Environmentally Friendly Transportation of Cargo”
 - 2008: Mobility Prize, VCÖ Tyrol
 - 2009: Mobility Prize as klima:aktiv project partner
- Austrian National Award in Marketing for ZOOM®, the collection for distributors

EGGER GROUP

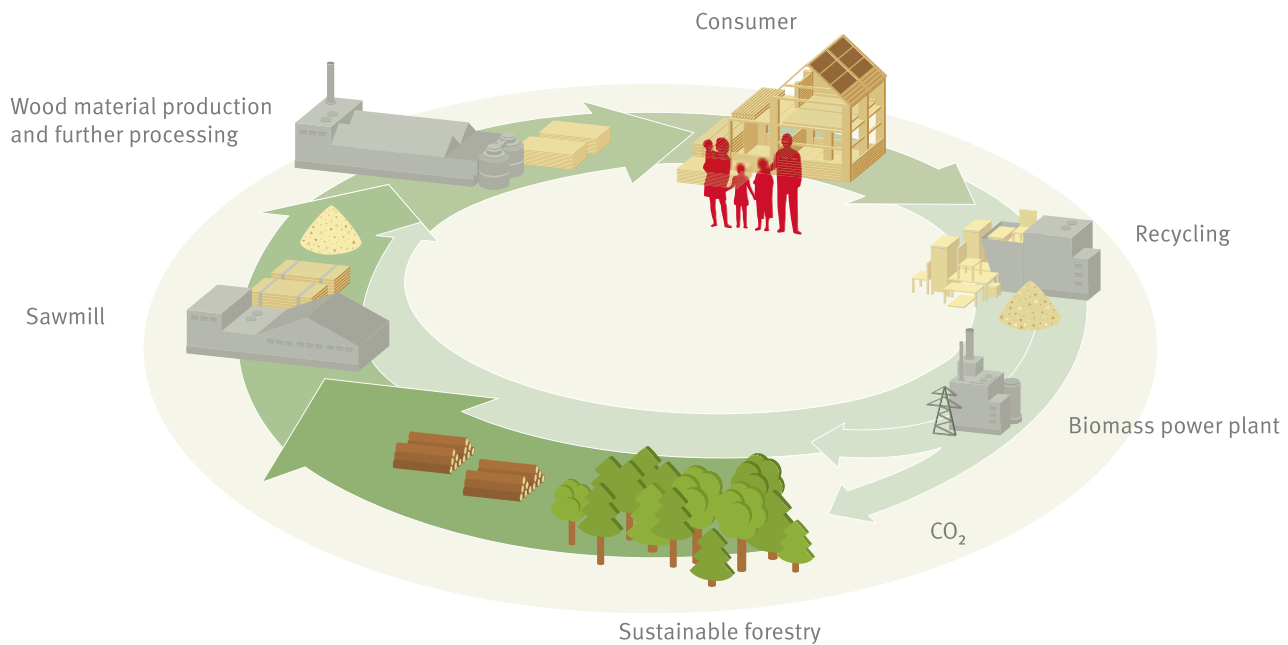

- 1961: Commissioning of the first chipboard plant in St. Johann (AT)
- International family company with 17 plants in 7 countries (Austria, Germany, France, Great Britain, Russia, Romania, Turkey)
- Sales offices in all key industrialised nations around the world
- 6.500 employees
- Pronounced focus on employees
- Turnover in the 10/11 business year: EUR 1.8 billion
- Wood Based Materials including timber: 7 million m³ (appr. 247,205,000 cubic feet) per year

- EGGER production sites
- EGGER sales offices

FROM THE TREE TO THE PRODUCT – A CLOSED CYCLE

ECOLOGY – BIOMASS ENERGY AT THE EGGER PLANT IN UNTERRADLBERG

- 2 biomass boilers to generate heat and electricity
- Total nominal output: 80 MW
- CO₂ reduction of 200,000 tons per year = 90 % of CO₂ from fossil fuels
- Covers largely the needs of the chipboard plant (chip drying etc.) + the neighbouring EGGER private brewery
- Corresponds to the annual consumption of approximately 25,000 private households or nearly all households in St. Pölten
- Electrical energy fed into the public electricity network
- Total biomass wood requirements for chipboard production + biomass power plant: approximately 500,000 tons = over 1,000,000 solid cubic meters (35,315,000 solid cubic feet) = over 3,000,000 stacked cubic meters (105,944,000 stacked cubic feet)
- Certificate for environmental management systems ISO 14.000 and EMAS since december 2009

ENVIRONMENT & SUSTAINABILITY AT EGGER MEANS

- The use of wood from sustainable forestry (PEFC, FSC)
- 3.6 million tons of CO₂ are bound in EGGER materials every year
- Environmental product declarations
- Environmentally friendly logistic systems
