Natural Mandal Maple

H3840 ST9 Natural Mandal Maple

H3840 Natural Mandal Maple breathes new life into light wood designs on the market and is one of the most realistic light wood reproductions to date, with small subtle knots and fairly strong planking.

In a move away from typical warm red toned maples, like H1642 Natural Crystal Maple or yellow toned maples like H1521 Maple, the hints of grey throughout the grain work very well in combination with our new natural brown-grey and green-grey tones.

FULL BOARD SCAN

We've scanned a 2700 x 1300 mm board of this decor, so that you can appreciate the grain pattern.
