Natural Tauern Beech

H3911 ST9 Natural Tauern Beech

Beech remains a classic and it is hard to imagine a furniture industry without it. Its warm character is highly versatile which means it can be used in all areas of the home.

One of our enduring best sellers, H1582 Ellmau Beech is now 20 years old and we regard H3911 Tauern Beech as a next generation alternative. Important design characteristics have been addressed and thus Tauern Beech includes more **natural elements** such as knots and a **greater interplay of colours**, which allows for **excellent combinations** with our new neutral grey tones.
