are 'Articles' according to REACH, for which EGGER has to fulfil their duties and provide relevant information to their customers (downstream users). REACH does not intend a registration or pre registration for any of our products. EGGER stays in regular contact with our suppliers. The manufacturers of materials, as well as the importers have insured us to carry out the necessary registrations or pre registration where applicable. Therefore, it can be confirmed from today's view that no restrictions have arisen for the production of our products.

Information about SVHC (Substances of Very High Concern)

REACH intends a special licensing procedure for the substances of Very High Concern (SVHC). According to the article 33 of the REACH order the supplier of a product which contains a material from the candidate's list in a concentration of more than 0.1% (w/w) is obliged to inform his customer accordingly.

We hereby confirm that none of the materials from the SVHC candidate's list (last updated 20.06.2016) are used in the production of our above mentioned products in a concentration > 0.1%.
