PerfectSense® Topmatt

The hard-wearing matt laminate
for horizontal surfaces

Scan the decor code using the app.

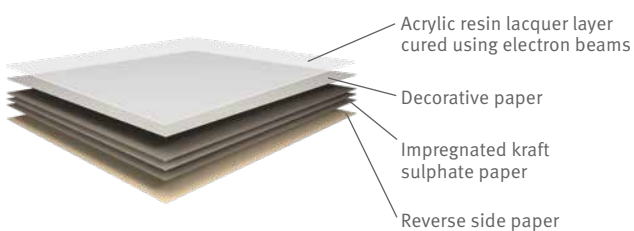

Laminates PerfectSense Topmatt set special accents. They are characterised by their super-matt, velvety-warm lacquer surface with anti-fingerprint property. The surface hardened with electron beams is resistant to abrasion, impact and scratches. This allows the use on horizontal and vertical

surfaces even with increased stress. **Laminates PerfectSense Topmatt with coloured core** combine the advantages of Topmatt laminates with those of a solid-coloured laminate. Mitred joints and butt edges are almost invisible.

Creating accents

The use of two-tone Doppia edging (PMMA) turns the edge of a piece of furniture into a design feature. Together with Premium Matt or Topmatt surfaces, these accent edges create the visual impression of real glass.
