Technical leaflet

Egger Eurodekor melamine faced boards

Material description:

Melamine faced wood-based material with a surface texture synchronised with the printing cylinder of Halifax Oak.

Surface texture ST37: Feelwood Rift

Description

Feelwood Rift emphasises the striking cracks marking the design of Halifax Oak with an authentic feel. The surface shows cracks and outlines the pores with a matt, irregular finish, creating the natural appearance and feel of solid oak.

The ST37 Feelwood Rift synchronised pore texture is particularly well suited for the Halifax Oak decors.

H1180 – nature Halifax Oak

H1181 – tobacco Halifax Oak

H1182 – cognac Halifax Oak

Special features

ST37 Feelwood Rift is synchronised with the printing cylinder of Halifax Oak and emphasises the striking cracks marking the design of Halifax Oak with an authentic feel.

Composition

Quality	Deviation from board thickness* [mm]
ML03	+0.6

* Thickness tolerances: see Eurodekor technical datasheet

Gloss level

Gloss points (60°): cannot be determined precisely due to the pronounced matt-gloss effect

Decor collection

Egger Decorative Collection (EDC)

Sampling

Sample space: BRI + SJO

Product: Eurodekor melamine faced chipboard – 8mm

Decors: H1180, H1181, H1182

Format: 700 x 500mm and DIN A4 (210 x 297mm)

Provisional note:

This technical data sheet has been carefully drawn up to the best of our knowledge. It is intended for information only and does not constitute a guarantee in terms of product properties or its suitability for specific applications. It is based on practical experiences, our own tests and correspond to our present state of knowledge. We accept no liability for any mistakes, errors in standards, or printing errors. In addition, technical modifications may result from the continuous development of Egger Eurodekor, as well as from changes to standards and public law documents. Therefore, the content of these processing instructions cannot serve as instructions for use nor as a legally binding basis.
