

Quality Specification Short Sawlogs Spruce

DBBRI345 - DB - EN

- 1. **Jurisdiction** 1
- 2. **Target assortment short logs Spruce (Picea abies)** 1
- 3. **Quality criteria of the sorting** 1

1. Jurisdiction

Country	Plant	
Germany	BRI	
Process Level 1	Process Level 2	Competence
Purchasing	Wood purchasing	

2. Target assortment short logs Spruce (Picea abies)

QUALITY	B, C, B/C Sorting based on the currently valid RVR (Framework agreement for the raw timber trade in Germany)
ORDER LENGTH	5 m and 4 m
DELIVERY LENGTH	Order length + 0.10 m (min. + 0.05 m / max. 0.45 m)
DIMENSIONS	Minimum top diameter: 12 cm without bark Max. root collar: 60 cm without bark

3. Quality criteria of the sorting

QUALITY CLASS B

- Fresh, healthy, straight, without discoloration, measurable quality parameters (according to RVR)

QUALITY CLASS C

- Fresh, healthy, straight, measurable quality parameters (according to RVR)
- Slightly irregular curved curvature with low yield losses
- Superficial slight discolorations and slight injuries of the stem mantle are permissible
- Fresh bark brood infestation without bark loss and without blue stain is permissible

QUALITY CLASS D

- Measurable quality parameters (according to RVR)
- Strongly irregular curved curvature with significant yield losses, but still suitable for sawing
- Discoloration and red stripe, fit for hewing and nail-holding
- Bark-breeding insects, lineatus
- Other relevant wood defects (wood still suitable for sawing): dents, knots, galls, cracks, etc.

Responsible	Editor	Valid until	Revision	Classification	Page
Paul Christoph	Starre Laura	09.05.2023	1	Public	1 of 3

QUALITY CLASS NFK (not suitable for sawing)

- Measurable quality parameters (according to RVR)
- Dimensionally and quality-related pulpwood (wood no longer suitable for sawing): Strongly irregular curved curvature, soft rot, heart over peeling damage, longhorn beetle and wood wasp infestation, severe cracks, etc.

QUALITY CLASS A_SP (not suitable for sawing)

- Wood containing metal (splinter wood)

NOTES

- B/C contracts can be agreed (C share \leq 20%)
- Whole cuts are provided in principle
- A tree species- and length-sorted piling and supply is mandatory
- In individual cases, deviating agreements can be made in the contract
