

TECHNICAL LEAFLET

EURODEKOR MELAMINE-FACED CHIPBOARD

Material description:

Melamine faced wood-based material board with a surface texture that looks natural and authentic thanks to irregular textures and a matt appearance.

Surface texture: ST36 Brushed Wood

DESCRIPTION

The ST36 Brushed Wood texture is particularly well suited for the decors:

- H1250 – Navarra Ash
- H1377 – Sand Orleans Oak
- H1379 – Brown Orleans Oak
- H1486 – Jackson Pine
- H3344 – Highline Oak
- H3420 – Thermo Pine

Due to an irregular texture and more matt appearance, ST36 Brushed Wood creates a natural and authentic look, following the trend of solid wood towards highly brushed surfaces. The texture runs lengthwise to the board and decor development is aligned this way as well.

SPECIAL FEATURES

Like ST18, the texture exhibits a great depth. However, initial tests indicate that no manual rework is required when edging ST36. Deviations from the nominal thickness have to be observed.

COMPOSITION

Quality	Deviation from board thickness* [mm]
ML03	+0.6

* Thickness tolerances: see EURODEKOR technical datasheet

GLOSS LEVEL

Gloss points: 4 ±1 (60°)
