

MORE FROM WOOD.

E EGGER

EGGER standard texture combinations.

At EGGER UK, we have a standard list of texture combinations which have been specifically developed with the decor paper and usage in mind.

We assign a specific texture to each decor to create the most realistic look and feel.

Combinations have also been created for specific furniture and design solutions.

Available standard textures with the same reverse

ST7

A pearl surface texture with a neutral, universal and matt surface. This texture is best used with uni colours.

ST9

Used with uni colours and woodgrains offering a very soft and natural feel. This texture supports the trend for matt surfaces.

ST10

A highly authentic texture for woodgrain reproductions.

ST12

An irregular distribution of linear pores, of various depths, gives the surface a natural look. A light sub-structure gives a velvet feel to the surface.

ST19

A linear finish with a matt-gloss effect creates authenticity. The texture aligns with lightly-planked woodgrain decors. It can also be used with solid colours for a painted wood look.

**ST20**

ST20 Metal Brushed gives mother-of-pearl and metallic decors an authentic character by creating the look and feel of finely sanded metal.

**ST28**

Characterised by its authentic feel, cracks and knots create the natural look and feel of real wood.

**ST36**

A deeply brushed but very natural, matt character that gives many different types of wood reproductions an authentic feel.

**ST37**

An authentic solid wood finish, enhanced by the synchronised pore, gives the Halifax Oak decor range a realistic look and feel.

**ST40**

Displays a bold, traditional look, with a deep matt structure that replicates a refined oak.

**ST76**

Based on a mottled and gently rough natural stone surface. It gives a wide variety of stone reproductions, from marble to slate, a neutral surface with an authentic rough feel that is robust.

**SM (Semi-Matt)**

An satin etched texture with a feel similar to lacquer.

Available standard textures with a different reverse*

Top texture

ST9

Reverse texture

SM

Available as ST9/SM or SM/ST9 - a soft and natural finish on one face, with a smooth matt finish on the other.

Also available as single sided MDF finish for various applications, the decorative ST9 structure can be applied to the top or reverse face.

ST10

SM

Available as ST10/SM or SM/ST10 – an authentic woodgrain texture on one face, with a smooth matt finish on the other.

Also available as single sided MDF finish for various applications, the decorative ST10 structure can be applied to the top or reverse face.

ST12

SM

Available as ST12/SM or SM/ST12 – a woodpore finish on one face, with a smooth matt finish on the other.

Also available as single sided MDF finish for various applications, the decorative ST12 structure can be applied to the top or reverse face.

ST19

SM

Available as ST19/SM or SM/ST19 - a deep linear grain on one face, with a smooth matt finish on the other.

Also available as single sided MDF finish for various applications, the decorative ST19 structure can be applied to the top or reverse face.

* Single sided MDF subject to individual decor / texture combination approval. Please get in touch with your EGGER contact for further information.
