

MORE FROM WOOD.

Egger Cut to width service

We take care of all sizes

EGGER Cut to width service

The edging you want, easily

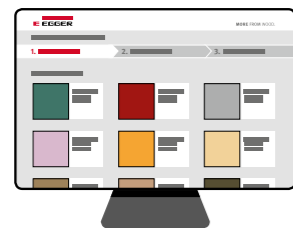

EGGER Products give an **elegant and decorative finish** to your interior design and furniture products. Modern design and furniture trends with atypical dimensions often require ABS edging in **non-standard widths**. If you can't find the edging you require in our stock program, we offer you an **optimal solution** with our edging configurator, naturally in EGGER decor and structure combinations.

With our **online based edging configurator**, you can order edging in **individual widths** between 12 and 100mm, based entirely upon your needs and demands. You can then send your order to your EGGER distributor. We then take care of the slitting process and all further processes (such as packaging and delivery).

This is how the service works on www.egger.com/cut-to-width

Please register for myEGGER or log in with your access details.

1. Selection of basic data and decors

First, select the desired edging decor and the thickness.

2. Edging cut to size

Then select special widths between 12 and 100 mm. You configure the entire mini jumbo roll according to your individual desires.

3. Complete configuration

Finally, check your selection and enter your details. You can now download the final order as PDF, print it, or send it directly as PDF via e-mail to the EGGER retailer.
