Laminates in Door Sizes

EGGER Laminates in Door Sizes

... combine durability with attractive design. They are the **ideal solution for the decorative design of interior doors**, e.g. in hotels, offices, hospitals, care facilities, schools, public buildings and ship interiors. Laminates can be bonded to a wide variety of materials such as raw chipboard, MDF or Eurolight lightweight boards.

All in one click

Find out more about healthy living, environment and sustainability and the technical properties of our laminates in door sizes.

Laminate advantages at a glance

Wear resistant

Lightfast

Resistant to many cleaning products and chemicals

Impact and scratch resistant

Moisture resistant

Antibacterial surface property according to ISO 22196 (= JIS Z 2801)

Hygienic

Resistant to stains

Available in decor match with other wood-based materials for interior fittings

Economical, versatile and quickly available

EGGER door laminates are available in three door formats from stock and in quantities of one. White nuances and uni colours are also available in the 2,350 × 1,310 mm format. **This means that doors can be produced at an optimised size and economically.** Other formats and Flammex low flammability laminates are available to order from a minimum quantity of 260 m².

Easier planning, faster decisions

Experience decors visually and haptically

For an optimal decor impression, you can order laminate samples around the clock in the EGGER sample shop. You can choose from size 85 × 85 mm samples, e.g. for mood boards, and size DIN A4 samples, which make it easier for your customers to decide on the decor.

Uniquely versatile

Uni colours and white decors are timeless classics for doors. Harmoniously matched to the window frames, refined with attractive textures or matt anti-fingerprint surfaces or in a dyed-through look, these laminate decors add value to doors.

Authentic and resistant

Doors with a wood appearance can be created particularly economically with laminates. The resistant surface of the wood reproductions does not need to be lacquered and is easy to clean. Thanks to the reproducibility and lightfastness, doors can be added or renewed more easily.
