# Furniture fronts in detail

As a full-range supplier of furniture components, we are constantly working on the further development of our product range. With the investment at the Bünde (DE) plant, we are increasing our capacity in the area of furniture front production. We have been producing furniture components in Bünde since 1994. The main focus is on the series production of body parts and fronts for the furniture industry.

The design of the new, single-sided short-cycle plant makes it possible to produce fronts from batch size 5. This allows you to have serial fronts manufactured externally and at the same time provides a solution for the purchase of individual front elements.

Surfaces	PerfectSense lacquered boards, Eurodekor melamine faced boards, laminate bonded boards
Processing steps	Milling, edging, bevelling
Dimensions	240 – 1600 mm long, 100 – 800 mm wide
Thicknesses	10 – 25 mm
Edging material	Melamine edging, ABS or PP edging from 0.4 to 3 mm thickness
Bonding	PUR white and natural
Purchase order	Separated by decors via EDI once a week
Minimum quantity	Smallest possible batch size for special fronts 5 pieces. In combination with stock orders, 1 piece also possible if required. At least one board** in the format 2800 × 2070 mm or 2800 × 1310 mm for laminate bonded boards. See off-cut optimisation. ** Valid for customer-specific board material stored in Bünde.
Off-cut optimisation	The fronts are cut to size for each decor and thickness from 2800 × 2070 mm or 2800 × 1310 mm for laminate bonded boards. Board leftovers (off-cuts) are used for parts that are regularly ordered in larger quantities.
Delivery	Exact quantities or industry standard with regard to over- or underdelivery Quality: fully machined
Packaging	Sorted. Up to a width of 800 mm on Euro or special pallets. PerfectSense Lacquered Boards are supplied with protective film. Pads for all surfaces possible with extra charge.
Delivery time	In case of agreed stocking of the full boards in Bünde: 10 working days for fronts already created in the system (follow-up orders), 14 working days for initial orders

## The advantages are obvious

- All materials are manufactured in-house. The product parameters can be optimally adjusted to each other.  
→ for the highest possible quality of furniture fronts
- Individual special fronts can be ordered from batch size 5 if required.  
→ Complete solution for the purchase of furniture components
- Destacking according to type  
→ for easy handling in your production
- Individual logistics concepts  
→ for demand-oriented delivery time and maximum delivery reliability
- Many years of experience in the serial production of furniture fronts  
→ for quality and delivery reliability right from your first order
- One contact for your entire range of parts: from body parts to serially produced furniture fronts and individual parts production in the front segment  
→ simple and time-saving processing
- Quality and design from one source for body, front and worktop
