We received the interzum Award for High Product Quality for our PerfectSense Lacquered Chipboards Matt TM9, TM12, TM22, TM28 and TM37.

# PerfectSense Premium Lacquered MDF Boards

PerfectSense Premium Lacquered MDF represent the Premium category of high-gloss and velvet matt decorative lacquered boards based on proven MDF quality. The valuable surfaces are particularly used in the upscale furniture segment and in exclusive interior furnishings.

Premium matt and gloss, exceptionally smooth finish

The Premium Matt (PM) boards are on trend with their opaque, velvety smooth surface and anti-fingerprint properties thanks to the high-quality lacquered finish. The highly durable and resistant surface make them suitable also for horizontal application, such as table tops or sideboards

Premium Gloss (PG) boards impress with their high degree of gloss and reflective surface. Rooms appear lighter and larger thanks to the mirror-like lacquer finish that gives a high-end look of glass with striking reflection.

Find out more about the PerfectSense product range to [egger.link/perfectsense-portfolio](https://egger.link/perfectsense-portfolio)

All matt lacquered surfaces have anti-fingerprint properties, making them easy to clean.

# PerfectSense Lacquered Chipboards Matt

PerfectSense Lacquered Chipboards combine the on trend matt look with textured surfaces on an affordable and sustainable chipboard core. The low gloss level enhances the natural look of the decors. In combination with authentic textures, the surfaces get more contrast and reflective nature.

Matt wood pore, deep and synchronised to the decor picture
