

MORE FROM WOOD.

E EGGER

How much water can
your floor withstand?

Up to 72 h
water-resistant:
**EGGER Laminate
Flooring Aqua+**

EGGER Laminate Flooring Aqua+ the premium flooring with optimised swelling protection:

EGGER Laminate Flooring Aqua+ is anything but water-shy. The special anti-swelling formula of the Aqua+ core board in combination with the CLIC *it!* form-fitting installation system and a water-repellent surface make it the ideal partner when facing demanding challenges.

Withstands more than just water.

EGGER Laminate Flooring Aqua+ is a high-quality, water-resistant floor covering for kitchens, bathrooms and commercial areas. With its swell-stop technology, it offers reliable protection against water.

The high-quality processed floor scores with its robust properties. It is resistant to scratches and impact, insensitive to stains and easy to clean, even with a steam cleaner. Of course, it is lightfast and colourfast and can also be installed over underfloor heating without any problems. The form-fitting click system *CLIC it!*

is reliable and makes installation child's play. 🧑🏻‍🔧

Timeless beauty

Available in **34** natural wood and stone looks. With woodgrain decors, the natural floorboard character is emphasised by the surrounding V-bevel. 

Stone decors look particularly good with a 5-bevel tile effect. 

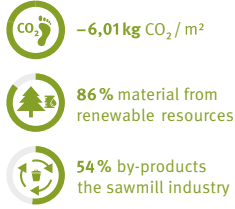

Experience the perfect combination of aesthetics and functionality with our water-resistant Laminate Flooring Aqua+. Available now from your specialist dealer or at to.egger.link/aqua-plus-laminate

Convincing features

EGGER sustainability indicators make the environmental performance of our products transparent and comprehensible.

For that little bit extra something: Laminate Flooring Aqua+ is available in use class **32** and 3 floorboard formats:

Classic: 1,292 × 193 mm × 8 mm
Pack contents: 1.99 m²

Large: 1,292 × 246 mm × 8 mm
Pack contents: 2.54 m²

Kingsize: 1,292 × 327 mm × 8 mm
Pack contents: 2.53 m²

The synchronised pore texture of the floor surface ensures that the flooring feels like real wood.

All benefits at a glance

- **100% protection against water:** 72 hours water-resistant according to the NALFA Swell Test
- **Inspired by nature:** available in a wide range of authentic wood and stone reproductions
- **Safe and convenient installation with the EGGER CLIC *it!* system:**
The form-fitting click system is easy to install floating and stays reliably in place
- **Sustainably manufactured** with wood from regional certified forestry
- **100% free of PVC and plasticisers**
- **Durable and long lasting** thanks to the very resistant and lightfast surface

**PVC
free**
