Egger Accessory System

**An easy installation,
from start to finish**

EGGER Accessory System

Our flooring accessories guarantee a professional installation process. For best results, we recommend our coordinated EGGER Flooring Accessories, saving you time throughout the installation process and ensuring your floors will remain in the best condition for years to come.

1 All beginnings are easy.

Installing your flooring with the right underlay ensures a long life due to the ideal pressure stability, as well as significant impact and walking noise reduction.

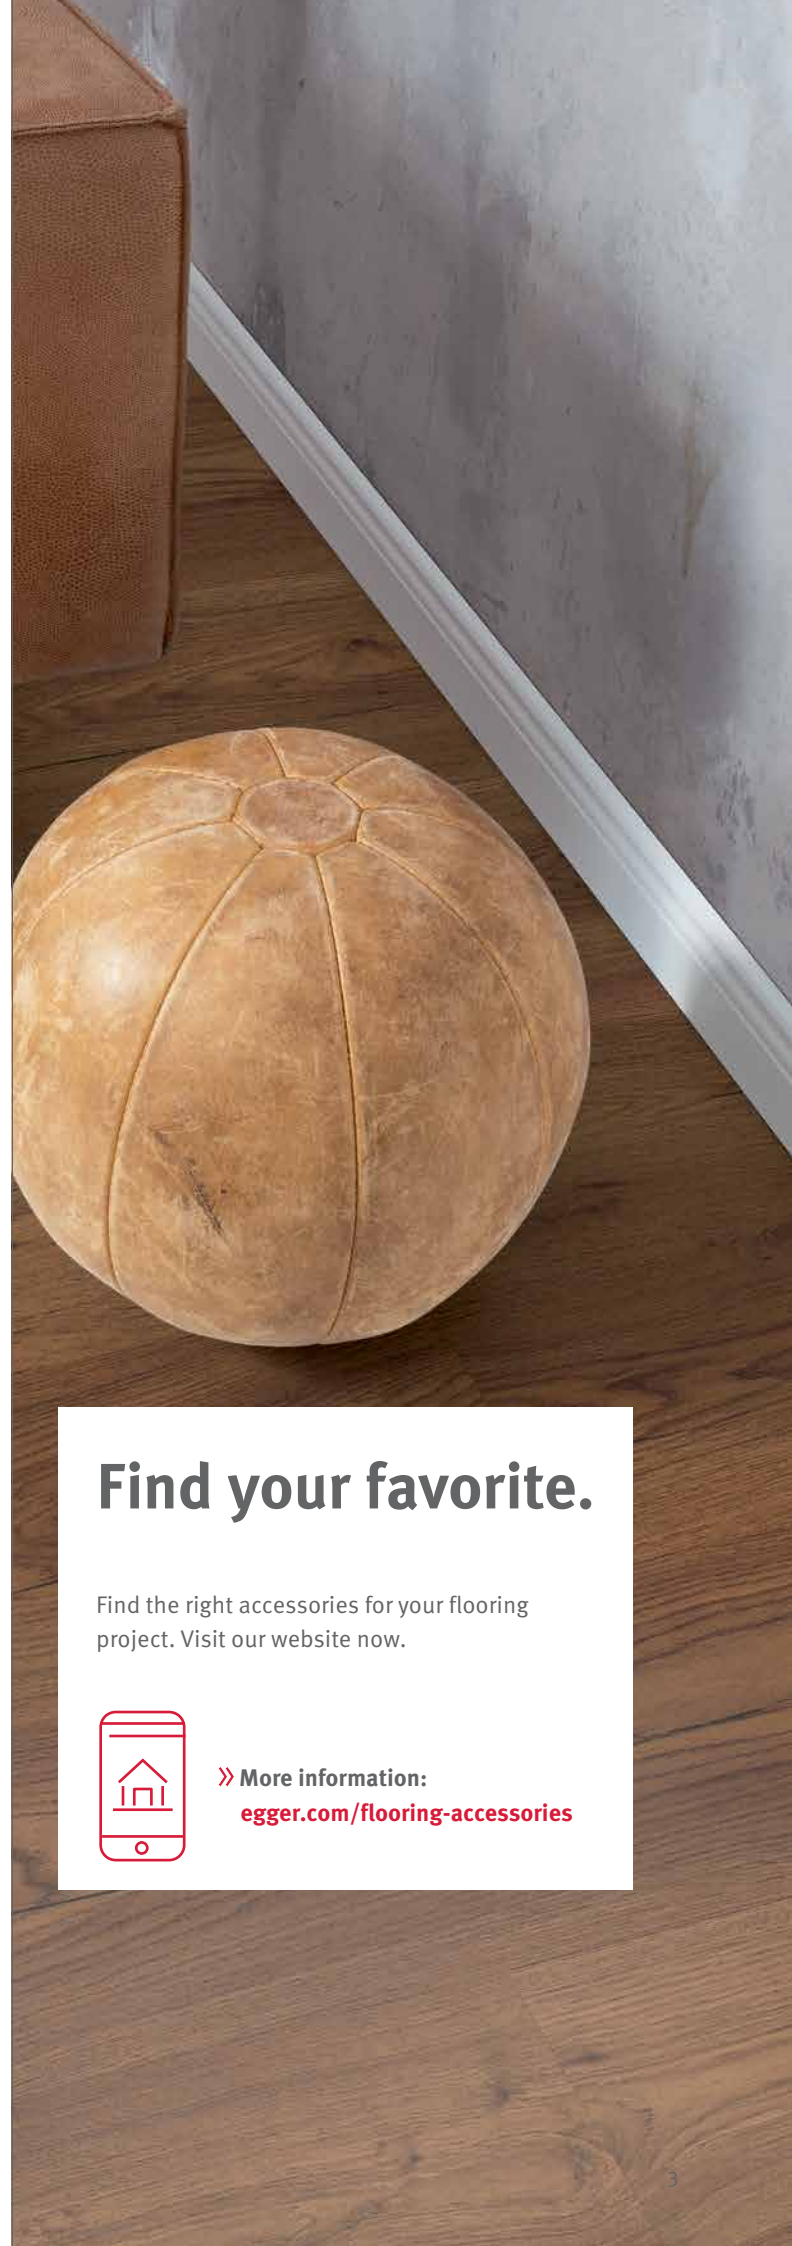

2 A nice frame.

With our wide range of EGGER skirting boards and flooring profiles, you will be able to produce neat finishes and seamless transitions.

3 Well maintained.

We also offer floor cleaner and maintenance products that will help to repair flooring in the event of damage.

Find your favorite.

Find the right accessories for your flooring project. Visit our website now.

1 Easy installation

EGGER underlays ensures a stable floor.

When installing EGGER Flooring as a floating installation, choosing the right underlay is essential to achieve the perfect look and the best performance. EGGER specialists have selected a range of high-quality underlays which are easy to install, provide excellent acoustic insulation and ensure long-term benefits.

Silenzio Easy

This underlay is designed to reduce impact and walking sound within the room. It is also suitable for underfloor heating. For installation on mineral subfloors, please use EGGER Alu Flex as a vapour barrier.

Silenzio Easy SD

The ideal underlay to reduce impact and walking sound in the room. It has an integrated vapour barrier which guarantees a fast installation. It is suitable for mineral subfloors and can also be installed with underfloor heating.

Silenzio Duo

This underlay acts both as an insulation underlay as well as a vapour barrier for the flooring. It is suitable for mineral subfloors and can also be installed with underfloor heating. It is ideal for high traffic areas, especially for commercial applications.

Silenzio Cork

100 % natural, reusable and recyclable. Thanks to its compressive strength, it protects the floor from heavy loads. Due to its low thermal resistance, it is suitable in combination with underfloor heating systems.

Alu Flex

This underlay forms a high-quality vapour barrier, which protects the floor covering from rising residual moisture from adjacent components. This vapour barrier is essential if you are installing EGGER flooring on a screed floor.

Professional Installation Tools

Installation Set

The EGGER Installation Set is suitable for all EGGER Flooring with the EGGER CLIC *it!* locking system. It helps with the quick and correct installation of your flooring.

The set consists of spacing wedges, a crowbar as well as the EGGER tapping block which is made of 100 % solid beech.

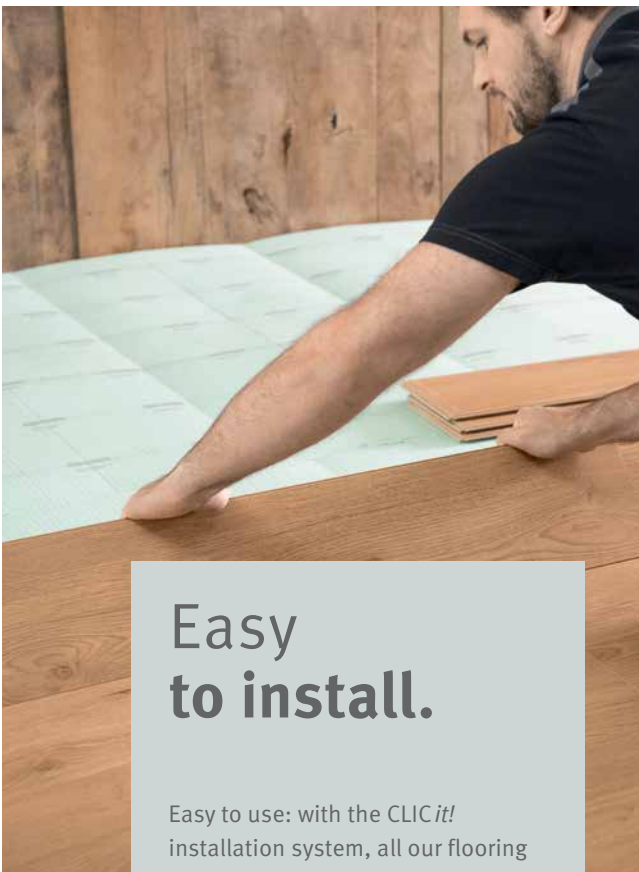

Aluminium Tape

The self-adhesive Aluminium sealing tape from EGGER connects two joints of EGGER underlay together. It ensures no rising moisture from the subfloor will damage your floor.

CLIC Sealer

The waterproof EGGER CLIC Sealer will protect your flooring against moisture. This floor sealer is the ideal solution for commercial entrance areas and wet areas. One tube seals about 10 m² of floor space.

Easy to install.

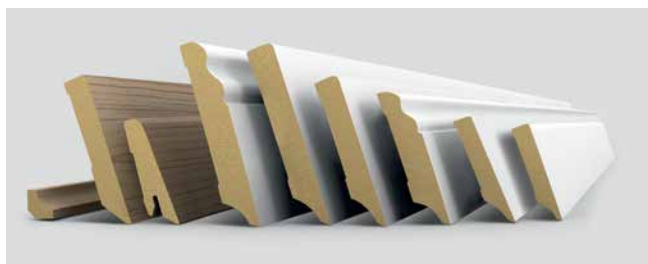

Easy to use: with the CLICit! installation system, all our flooring is safe, quick and can be easily installed in any room. The profile of our flooring boards is designed for the optimum fit whilst also offering additional protection against moisture ingress.

2 Easy Finish

EGGER skirting boards and flooring profiles for a neat finish.

We have a range of skirting boards available to match our flooring decors as well as classic white skirtings in various heights and shapes.

Flooring profiles are available in different colours to help create a coordinated look, while offering maximum functionality and durability.

60 / 80 mm Decor Skirting Boards

Skirting boards in the same decor as the floor ensures a clean edge and a neat finish. The robust skirtings are made from an MDF core and a water-repellent decorative film.

Dimensions:

2400 × 60 × 17 mm

2400 × 80 × 14 mm

» Available in various decors and white

Clip Star

The 60 mm decor skirtings can be easily and quickly mounted with EGGER Clipstar fastening clips.

Corners and Connections

Matching corner and connection elements for 60 mm decor skirtings ensuring the perfect look for corners on skirting boards.

» Available in various decors

100 / 70 mm Hamburg Skirtings

The curved skirting boards in white, with a base height of either 100 mm or 70 mm creates a strong impression, resulting in a perfect border with appealing design. The robust skirtings are made from an MDF core and a water-repellent white film which can also be painted.

Dimensions:
2400 × 100 × 18 mm
2400 × 70 × 18 mm

100 / 80 / 60 / 40 mm Cubical Skirtings

The cubical white skirting boards, with a base height of either 100 mm, 80 mm, 60 mm or 40 mm creates an effective, neat wall finish. The linear and minimalist design can also be painted. The robust skirtings are made from an MDF core and a water-repellent white film.

Dimensions:
2400 × 100 × 18 mm
2400 × 80 × 18 mm
2400 × 60 × 18 mm
2400 × 40 × 16 mm

Beading Profiles

Our wall finish for minimalists. The adhesive tape applied on the back makes assembly quick and easy. These skirting boards are available in various colours.

Dimensions:
2400 × 16 × 16 mm
» Available in various decors
