Egger furniture components

**Clic – the innovative body connection**

# Using Clic for new opportunities

The Clic technology in furniture construction offers a multitude of new possibilities. Clic represents a form-fitting connection for the connection of chipboard and Eurolight lightweight boards.

Thanks to the Clic connection, no additional furniture fittings and / or adhesives are necessary. This means body parts can be assembled quickly and easily on the construction site.

---

**Engage. Angle by 45°. Tilt into position. Click and go.**

---

- Tools are so yesterday**  
 You only need your hands and a little strength
- Fast and easy**  
 Body assembly in a few moves directly on the construction site
- A strong connection**  
 High stability thanks to form-fitting tongue and groove joint
- Neat appearance**  
 No visible connection fittings
- Possibility for quick disassembly**  
 When needed, the stable connection can be quickly dismantled
- Optimised process**  
 Delivery directly to construction site possible
